**PROXY STATEMENT**

Annual Meeting of Shareholders – July 18, 2008

**SOLICITATION AND REVOCABILITY OF PROXIES**

This Proxy Statement is furnished in connection with the solicitation of Proxies by the Board of Directors of Rocky Mountain Chocolate Factory, Inc. (the “Company”) for use only at the Annual Meeting of the Company’s shareholders to be held at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders.

Each shareholder, even though he or she now plans to attend the meeting, is requested to promptly mark, sign, date and return the enclosed Proxy in the envelope provided. Any shareholder present at the meeting may withdraw his or her Proxy and vote personally on each matter brought before the meeting.

It is anticipated that the Proxy Statement, together with the Proxies and the Company’s 2008 Annual Report on Form 10-K, will first be mailed to the Company’s shareholders on or about June 18, 2008. A person giving the enclosed Proxy has the power to revoke it at any time before it is exercised by (1) delivering written notice of revocation to the Secretary of the Company (2) duly executing and delivering a Proxy for the Annual Meeting bearing a later date or (3) voting in person at the Annual Meeting.

The Company will bear the cost of this solicitation of Proxies, including the charges and expenses of brokerage firms and others for forwarding solicitation materials to beneficial owners of the Company’s Common Stock, par value \$0.03 per share (the “Common Stock”). In addition, the Company’s officers, directors and other regular employees, without additional compensation, may solicit Proxies by mail, personal interview, telephone or telegraph.

**VOTING SECURITIES**

The close of business on June 9, 2008 has been fixed as the record date for the determination of holders of record of the Common Stock entitled to notice of and to vote at the Annual Meeting. On the record date, approximately 5,994,651 shares of the Common Stock were outstanding and eligible to be voted at the Annual Meeting.

For each share of Common Stock held on the record date, a shareholder is entitled to one vote on all matters to be voted on at the Annual Meeting, except the election of directors.

Shareholders have cumulative voting rights in the election of directors, and there is no condition precedent to the exercise of those rights. Under cumulative voting, each shareholder is entitled to as many votes as shall equal the number of his or her shares multiplied by six, the number of directors to be elected, and he or she may cast all of those votes for a single nominee or divide them among any two or more nominees as he or she sees fit. It is the intention of the Proxy holders to exercise voting rights in order to elect the maximum number of nominees named below. An instruction on the Proxy to withhold authority to vote for any nominee will be deemed an authorization to vote cumulatively for the remaining nominees, unless otherwise indicated.

**VOTING PROCEDURES**

The vote required for the election of directors is a plurality of the shares of Common Stock present or represented by proxy at the meeting and entitled to vote thereon, provided a quorum is present. The vote required for the approval of any other item to be acted upon at the Annual Meeting is the affirmative vote of a majority of the shares entitled to vote on the matter and present or represented by proxy at the meeting, provided a quorum is present. A quorum is established by the presence or representation at the Annual Meeting of the holders of a majority of the Company’s voting shares. Brokers who hold shares in street name have discretionary authority to vote on certain “routine” items even if they have not received instructions from the persons entitled to vote such shares. However, brokers do not have authority to vote on “nonroutine” items without such instructions. Such “broker non-votes” (shares held by brokers or nominees as to which they have no discretionary power to vote on a particular matter and have received no instructions from the persons entitled to vote such shares) are counted as present and entitled to vote for purposes of

determining whether a quorum is present but are not considered entitled to vote on any nonroutine matter to be acted upon. For matters requiring the affirmative vote of a plurality of the shares of Common Stock present or represented at the Annual Meeting, such as Proposal 1, broker non-votes would have no effect on the outcome of the vote. For matters requiring the affirmative vote of a majority of the shares of Common Stock present or represented at the Annual Meeting and entitled to vote, broker non-votes would not be counted as among the shares entitled to vote with respect to such matters. Thus, the effect of any broker non-votes with respect to such matters would be to reduce the number of affirmative votes required to approve the proposals and the number of negative votes required to block such approval.

Shareholders are not entitled to any rights of appraisal or similar dissenters' rights with respect to any matter to be acted upon at the Annual Meeting, because, pursuant to Colorado law, the matters to be acted upon do not give rise to any such dissenters' rights.

**AUDIT COMMITTEE REPORT**

Management is responsible for the Company's internal controls and the financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes. It is not our duty or our responsibility to conduct auditing or accounting reviews or procedures. We are not employees of the Company and we may not be, and we may not represent ourselves to be, or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, we have relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America, and on the representations of the independent registered public accounting firm included in the report on the Company's financial statements. Our oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent registered public accounting firm do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with the standards of the Public Company Oversight Board (United States) or that the Company's independent registered public accounting firm is in fact "independent."

In this context, the Audit Committee has met and held discussions separately with management and the independent registered public accounting firm. Management represented to the Audit Committee that the Company's audited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee discussed with the independent registered public accounting firm matters required to be discussed by the Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as currently in effect.

The Company's independent registered public accounting firm also provided to the Audit Committee the written disclosure required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. The Audit Committee discussed with the independent registered public accounting firm that firm's independence and considered whether the non-audit services provided by the independent registered public accounting firm are compatible with maintaining its independence.

Based on the Audit Committee's discussion with management and the independent registered public accounting firm, and the Audit Committee's review of the representation of management and the report of the independent registered public accounting firm to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended February 29, 2008 filed with the Securities and Exchange Commission.

Submitted by the Audit Committee of the Company's Board of Directors,

Lee N. Mortenson  
Gerald A. Kien  
Fred M. Trainor

The Nominating Committee consists of three non-employee directors, Lee N. Mortenson, Gerald A. Kien and Fred M. Trainor, each of whom has been determined to be "independent" as that term is defined in Nasdaq Rule 4200. The Nominating Committee operates under a written charter adopted by the Board of Directors.

The purposes of the Nominating Committee are: (i) to assist the Board of Directors in identifying individuals qualified to become members of the Board of Directors; and (ii) to approve and recommend to the Board of Directors qualified director candidates.

The Nominating Committee will consider director candidates recommended by shareholders when such recommendation is made in writing and (i) delivered pursuant to the Company's Policy on Shareholder Communications with the Board of Directors; (ii) received by a date no later than the 120<sup>th</sup> calendar day before the anniversary of the mailing date of the Company's proxy statement released to shareholders in connection with the previous year's annual meeting; and (iii) signed by one or more shareholders that beneficially owned 5% or more of the Company's voting Common Stock for at least one year as of the date the recommendation is made.

In determining whether an individual is qualified to serve on the Company's Board of Directors, whether recommended by the by the Nominating Committee or by the shareholders, the Nominating Committee considers relevant factors, including, but not limited to, an individual's independence, knowledge, skill, training, experience and willingness to serve on the Board of Directors.

Each nominee for director identified above is a director standing for re-election.

Submitted by the Nominating Committee of the Company's Board of Directors,

Lee N. Mortenson  
Gerald A. Kien  
Fred M. Trainor

## **EXECUTIVE COMPENSATION**

### **Compensation Discussion and Analysis**

#### *Objectives of Our Compensation Programs*

The goals of the Company's compensation program for its named executive officers are to ensure that a strong relationship exists between executive compensation and the creation of shareholder value, and that executive officers are strongly motivated and retained. The Company seeks to create a direct relationship between the level of total executive officer compensation and the Company's success in meeting its annual performance goals as represented by its annual business plan. The Company also seeks to reward equitably the relative contribution and job performance of individual executive officers.

The Compensation Committee believes that linking executive compensation to corporate performance results in a better alignment of compensation with corporate goals and shareholder interests. As the Company's management team meets or exceeds the performance goals approved by the Compensation Committee, which focus on aggressive growth on a year-over-year basis, resulting in increased value to shareholders, the executives are rewarded commensurately. The Company believes that given the strong link between pay and performance, the amount of compensation for its executive officers is inherently limited by their ability to grow the Company because of the type and size of the Company's business and its profitability. The Committee believes that compensation levels during fiscal 2008 adequately reflect the Company's compensation goals and policies.

#### *How We Set Compensation*

The Company sets compensation for its named executive officers as a team based on the overall performance of the Company according to its business plan. The Board typically meets in December of each year to establish the Company's business plan for the following fiscal year. The Compensation Committee typically meets again following fiscal year-end when the results are completed to approve payment of bonuses and/or salary increases based on the prior fiscal year's performance and to approve compensation for the current fiscal year. Mr. Crail, the Company's Chairman of the Board and President, and Mr. Merryman, the Company's Chief Operating Officer and Chief Financial Officer, generally make recommendations to the Compensation Committee regarding both payout amounts for the prior fiscal year and compensation amounts for the current fiscal year for all the named executive officers, including themselves.

The Compensation Committee has complete discretion to pay compensation even if performance does not meet established performance goals or to otherwise reduce or increase the size of any award or payout, including a decrease to zero, and may also do so based on performance other than the established performance goals. The Compensation Committee has complete discretion to recognize individual performance.

The Company has no policy on adjusting or recovering awards or payments if the Company restates or otherwise adjusts the relevant company performance measures in a manner that would reduce the size of an award or payment.

At the beginning of fiscal year 2008 the Compensation Committee and Mr. Crail determined that Mr. Crail's base compensation would not be increased at the beginning of the year. A performance incentive was implemented so that Mr. Crail's base salary would be increased retroactively if a certain target was met during the year. Specifically, the Compensation Committee determined that in the event the Company achieved 100% of budgeted net income (which budgeted number was 20% higher than the prior year's net income), Mr. Crail would receive an additional 10% salary increase which would be applied retroactively and paid at the end of fiscal 2008. The net income target was not achieved; therefore, Mr. Crail's compensation was not accordingly increased.

For more information about the Compensation Committee, see disclosure under "Election of Directors."

## *Elements of Compensation*

The principal elements of the compensation program for the Company's named executive officers are base salary, performance-based annual bonuses and long-term incentive compensation in the form of equity compensation granted under the 2007 Equity Incentive Plan (the "2007 Plan").

**Base Salary and Benefits.** The Company pays base salary primarily to provide a base level of income to the named executive officers and to encourage their continued service to the Company. Annual salaries for the Company's executive officers are generally reviewed annually and the Compensation Committee evaluates potential base salary increases based on a number of objective and subjective factors. Salary decisions are based primarily on the Compensation Committee's subjective analysis of the factors contributing to the Company's success and of the executive's individual contributions to that success. In addition, in the event that the Company hired a new key executive at a higher base salary, the Compensation Committee would evaluate the base salaries of the other executives and consider adjusting them for parity.

For fiscal year 2008 the Compensation Committee approved a 10% salary increase for all named executive officers retroactive to the beginning of fiscal year 2008 if the Company achieved net income of \$ 5,700,000 for fiscal year 2008, with the retroactive portion of the salary increase for fiscal year 2008 to be paid in a lump sum after year-end when the Compensation Committee determines that the performance goal was met. In May 2008 the Compensation Committee determined not to award these retroactive salary increases to the named executive officers because the Company had actual net income for fiscal year 2008 of \$4,961,000, which fell short of the applicable performance goal.

Our named executive officers generally receive health and welfare benefits under the same programs and subject to the same terms and conditions as our other salaried employees. Other elements of compensation for the Company's named executive officers are participation in company-wide life insurance, long-term disability insurance, medical benefits and the ability to defer compensation pursuant to a 401(k) plan. The named executive officers also receive matching contributions by the Company under the Company's 401(k) plans at a rate of 25% of 6% of base salary, which is the same benefit available to all salaried employees.

**Performance-Based Annual Incentive Bonuses.** Cash bonuses based on the Company's performance are awarded to the executive officers under an incentive compensation plan. Under the plan that served as the basis for bonuses paid for fiscal year 2008, executive officers received awards pursuant to which they could earn a bonus calculated as a percentage of their base pay based on the Company's achievement of targeted levels of fiscal year 2008 net income of \$5,700,000, including the effect of the bonus accrual. Additional bonuses may be awarded at the discretion of the Compensation Committee in recognition of special accomplishments. Whether the executive officers' total pay is comparable to the compensation of executives with similar responsibilities at comparable companies may vary from year to year depending upon the Company's performance.

For fiscal year 2008, the named executive officers would be eligible to earn a portion of their target bonus award if the Company achieved net income, net of the applicable bonus amount accrual, at or above threshold level. The incentive compensation bonus award target amounts are set forth below as a percentage of each named executive officer's fiscal year 2008 annual salary. For fiscal year 2008, the Compensation Committee established a threshold level performance at 75% of the target level, at which point the named executive officers would receive 50% of their target bonus amounts. If the Company achieved net income for fiscal year 2008 below this threshold level, the named executive officers would receive zero bonus. For performance between the threshold and target levels, or above the target level, the executive officers would be entitled to a bonus payment calculated based on the ratio between actual performance and the target performance.

For fiscal year 2008, the Company failed to achieve net income at the targeted level of performance. In light of this result, Mr. Crail and Mr. Merryman recommended to the Compensation Committee that the named executive officers receive no bonus payment for fiscal year 2008 in the interest of the Company and its shareholders. The Compensation Committee approved the recommendation and no level of performance based compensation was paid, as set forth in the table below. Factoring in the effect of no bonus payments, the Company achieved net income for fiscal year 2008 at 87% of the targeted level.

<u>Name of Executive Officer</u>	<u>Fiscal Year 2008 Annual Incentive Target Bonus Amount as a Percentage of Annual Base Salary</u>	<u>Actual Bonus Paid for Fiscal Year 2008 as a Percentage of Target Bonus Amount</u>	<u>Fiscal Year 2008 Base Salary</u>

**Long-Term Incentive Compensation.** Awards of stock options and other forms of stock-based compensation strengthen the ability of the Company to attract, motivate and retain executives of superior capability and more closely align the interests of management with those of its shareholders. The Compensation Committee considers on an annual basis the grant of stock-based compensation to executive officers and key managers under the 2007 Plan. The number granted is generally based upon the position held by a participant and the Compensation Committee's subjective evaluation of such participant's contribution to the Company's future growth and profitability. The grant of options is an annual determination, but the Compensation Committee may consider the size of past awards and the total amounts outstanding in making such a determination. Stock options are granted with an exercise price equal to or greater than the current market price of the Company's stock and will have value only if the Company's stock price increases, resulting in a commensurate benefit for the Company's shareholders.

No stock-based compensation was awarded to executive officers or others in fiscal 2008. The Company terminated use of stock options upon its adoption of Statement of Financial Accounting Standards No. 123 (revised 2004) in fiscal year 2006 because it believed that the expense associated with stock options outweighs their incentive value. To create a long-term incentive in lieu of additional stock option grants the Compensation Committee granted stock options before the Company adopted FAS 123R that were fully vested at grant, but with an exercise prices significantly in excess of the then-current per share price of the Company's stock (e.g., at 20%, 40%, etc. over the then-current stock price) so that the stock options would only have value recognizable by the option holders as the Company's stock price increases over time to exceed these exercise prices. In making these awards, the Compensation Committee looked primarily at the number of shares for each executive and the potential dilutive effect on the Company, rather than at the potential value of those shares. Options presently held by current executive officers and directors under the Company's option plans cover a total of 325,783 shares, and all of these options are vested and exercisable. The Company accelerated vesting on all outstanding stock options in advance of adopting FAS 123R.

***Change-in-Control Severance Payments***

The Company entered into employment agreements with certain executives of the Company which contain, among other things, change in control severance provisions, at a time when the Company was facing a potentially hostile takeover attempt to protect interests of the executive team and keep them focused on the Company's business. These potential payments are discussed further below.

## Potential Payments on Termination or Change in Control

We have arrangements with each of our named executive officers providing for post-employment payments under certain conditions, as described below.

**Employment Agreements.** The Company has entered into employment agreements with certain executives of the Company which contain, among other things, "change in control" severance provisions. Specifically, the Company has entered into employment agreements with Franklin E. Crail, Edward L. Dudley, Jay B. Haws and Bryan J. Merryman. The employment agreements generally provide that, if the Company terminates the executive's employment under circumstances constituting a "triggering termination," the executive will be entitled to receive, among other benefits, 2.99 times the sum of (i) the executive's annual salary and (ii) the lesser of (a) two times the bonus that would be payable to the executive for the bonus period in which the change in control occurred and (b) 25% of the executive's annual salary. The executive will also receive an additional payment of \$18,000, which represents the estimated cost to the executive of obtaining accident, health, dental, disability and life insurance coverage for the 18-month period following the expiration of COBRA coverage.

A "change in control," as used in these employment agreements, generally means a change in the control of the Company following (1) a person acquiring direct or indirect beneficial ownership of 20% or more of the Company's then outstanding voting securities, without the prior approval of two-thirds of the Board of Directors, (2) a merger or other consolidation transaction in which the Company's Board of Directors prior to the transaction constitutes less than a majority of the Company's Board of Directors after the transaction or (3) the members of the Company's Board of Directors during any consecutive two-year period ceasing to be the majority of the Board of Directors at the conclusion of that period. A "triggering termination" generally occurs when an executive is terminated during a specified period preceding a change in control of the Company, or if the executive or the Company terminates the executive's employment under circumstances constituting a triggering termination during a specified period after a change in control. A triggering termination also includes a voluntary termination by the executive within five business days before an anticipated change in control with the concurrence of two concurring persons (either the Chairman of the Board of Directors or a member of the Company's Compensation Committee) that the change in control is likely to occur during such five-business day period. In such event, the executive must agree to continue to work on an at-will basis, without compensation, until the change in control occurs. If the change in control does not occur within ten business days, the executive must refund the severance payment to the Company.

Assuming the applicable triggering event took place on February 29, 2008, the named executive officers would have been eligible for payments set forth in the following table. These payments are estimates. If a specific triggering event had actually occurred, the named executive officer would only receive the payments that applied to that specific triggering event. These payments would come from us if the triggering event occurred before a change in control and from the successor company if after a change in control.

<u>Name of Executive Officer</u>	<u>Change in Control Severance Payment (\$)(1)</u>	<u>Payment for Insurance Coverage (\$)</u>
Franklin E. Crail, Chairman of the Board, Chief Executive Officer and President .....	\$986,700	\$18,000
Bryan J. Merryman, Chief Operating Officer, Chief Financial Officer and Director	\$859,625	\$18,000
Edward L. Dudley, Sr. Vice President – Sales and Marketing	\$646,588	\$18,000
Jay B. Haws Vice President – Creative Services	\$590,525	\$18,000

(1) These amounts are based on 2.99 times 125% of each executive's salary in place during fiscal year 2008.

## DIRECTOR COMPENSATION

Directors of the Company do not receive any compensation for serving on the Board. Compensation committee members are paid quarterly, \$750 each for committee members and \$1,500 for the committee chairman. Audit committee members are paid quarterly, \$500 each for committee members and \$1,500 for the committee chairman. Additionally, audit committee members receive \$250 for each meeting held by phone and \$500 for each meeting held in person. Also, an audit committee member attending all of the audit meetings for any fiscal year will receive a \$1,000 bonus for that year. Directors who are not also officers or employees of the Company are entitled to receive stock awards under the 2007 Plan.

Formerly, the 2000 Director's Plan provided for automatic grants of nonqualified stock options to directors of the Company who are not also employees or officers of the Company. The 2000 Director's Plan provided that, during the term of the 2000 Director's Plan, options were granted automatically to new nonemployee directors upon their election. Each such option permitted the nonemployee director to purchase 32,340 shares of Common Stock at an exercise price equal to the fair market value of the Common Stock on the date of grant of the option. Each year following adoption of the 2000 Director's Plan, on a date established by the Compensation Committee, during the term of the 2000 Director's Plan, options to purchase 3,234 shares of Common Stock were granted automatically to each nonemployee director, if any, who is serving the Company as a director on such date. On August 17, 2007 shareholders approved the Company's 2007 Equity Incentive Plan which replaced all outstanding equity plans, including the 2000 Director's Plan. The 2007 Plan does not provide for automatic grants of nonqualified stock options to directors of the Company who are not also employees or officers of the Company. Each year following adoption of the 2007 Plan the Compensation Committee, in its administration of the Plan, will make a determination if any awards to nonemployee directors, including awards to nonemployee directors upon their election, are to be made. On May 19, 2008 the compensation committee approved the issuance of 1,000 shares of unrestricted stock to each nonemployee director.
